

Press Release

HOCHTIEF wins contract to construct Poole Twin Sails Bridge

Civil, Marine, Mechanical and Electric works – High specification architectural finishes – Project to be completed in early 2012

HOCHTIEF (UK) Construction has been awarded the construction of the second harbor Twins Sails Bridge in Poole. The volume of the contract is approximately £20 million. The project combines intricate civil, marine, mechanical and electrical works with high specification architectural finishes. Construction is due to commence early summer 2010 and is expected to take 20 months. The bridge will open to the public in early 2012.

Tim Lloyd, Finance Director for HOCHTIEF (UK), said: "HOCHTIEF are very pleased and proud to be awarded the construction of the new Twin Sails Bridge and look forward to a successful partnership with Borough of Poole."

The bridge is part of an initiative by Poole Borough Council to regenerate the area including new homes, employment opportunities and public open space that together will lever in significant investment. It will provide critical infrastructure for 26 hectares of brownfield land and unlock one of the largest regeneration sites in the South West. Over the next 10 years, this project is expected to deliver 2,000 homes, and create up to 5,000 jobs.

HOCHTIEF is one of the leading international providers of construction-related services. With more than 66,000 employees and a sales volume of EUR 18.17 billion in FY 2009, the company is represented in all the world's major markets. The Group's service offering in the fields of development, construction, services, concessions and operation covers the entire life cycle of infrastructure projects, real estate and facilities. In the USA, the biggest construction market in the world, HOCHTIEF is the No. 1 general builder via its subsidiary Turner and, with Group company Flatiron, ranks among the most important

HOCHTIEF Construction as a service-oriented construction company bundles the traditional core business of the HOCHTIEF Group in Europe. This mainly includes building construction, and civil and structural engineering. The company has specialized in complex market segments such as high-rise buildings, airports, tunnels and power plants. HOCHTIEF Construction is the management company of the Europe corporate division which employs more than 9,000 staff. In addition to the classical construction business, the partnership-based business model PreFair and the property development business format, the company offers its clients comprising service packages. Further information is available at www.hochtief-construction.com.

HOCHTIEF (UK) Construction is a fully owned subsidiary of HOCHTIEF Construction. Renowned for engineering excellence and innovative solutions, the company specializes in complex market segments such as Transportation, Energy, Marine Works, Tunnelling, Building and Civil and Structural Engineering. The Group unit that provides its customers with a reliable quality service currently employs more than 150 people and operates in Swindon. Further information is available at www.hochtief.co.uk.
