During a 21 hour possession of the railway on 14th June 2009 HOCHTIEF (UK) Installed a 430 tonne span of Bridge deck over the Channelsea Curve tracks at Stratford. The lift completed erection of the 7 span structure that connects the 2010 Olympic Park to the Westfield owned Stratford City Development shopping complex to the North.

The client for the £9.5M structure is Westfield Shopping Centres Ltd, with funding from the ODA. Main contractor HOCHTIEF (UK) appointed Tony Gee & Partners to be the Designers for The Design and Build contract with the steelwork fabrication and erection sub-contracted to Cleveland Bridge who used a Sarens AK680 crane for the lift.

The Bridge 12 works are programmed for completion by the end of October 2009, and are currently on target to achieve that date.

HOCHTIEF is one of the leading international providers of construction-related services. With more than 66,000 employees and a sales volume of EUR 18.17 billion in FY 2009, the company is represented in all the world's major markets. The Group's service offering in the fields of development, construction, services, concessions and operation covers the entire life cycle of infrastructure projects, real estate and facilities. In the USA, the biggest construction market in the world, HOCHTIEF is the No. 1 general builder via its subsidiary Turner and, with Group company Flatiron, ranks among the most important players in the field of transportation infrastructure construction. With its subsidiary Leighton (HOCHTIEF share around 55 percent), the Group is market leader in Australia. Because of its engagement for sustainability, HOCHTIEF has been listed in the Dow Jones Sustainability Indexes since 2006. Further information is available at www.hochtief.com/press.

HOCHTIEF Construction as a service-oriented construction company bundles the traditional core business of the HOCHTIEF Group in Europe. This mainly includes building construction, and civil and structural engineering. The company has specialized in complex market segments such as high-rise buildings, airports, tunnels

**HOCHTIEF****(UK) CONSTRUCTION**

and power plants. HOCHTIEF Construction is the management company of the Europe corporate division which employs more than 9,000 staff. In addition to the classical construction business, the partnership-based business model PreFair and the property development business format, the company offers its clients comprising service packages. Further information is available at www.hochtief-construction.com.

HOCHTIEF (UK) Construction is a fully owned subsidiary of HOCHTIEF Construction. Renowned for engineering excellence and innovative solutions, the company specializes in complex market segments such as Transportation, Energy, Marine Works, Tunnelling, Building and Civil and Structural Engineering. The Group unit that provides its customers with a reliable quality service currently employs more than 150 people and operates in Swindon. Further information is available at www.hochtief.co.uk.
